Water and Waste Management (WWM) International

Water and Waste Management (WWM) is an eclectic team of Consultants, Scientists, Engineers, and Academicians from USA, Australia, Canada, Europe, Singapore, and India with expertise in water and waste management. With an average experience of about 30+ years, the Group provides a global platform for Governments, Industry, and the Public to share the knowledge and expertise for sustainable solutions in water and waste management for sustainable development.

WWM International Conference Series

WWM Series of International Conference launched outstanding scientific programs and expo by establishing collaborations among elite business professionals, policy makers, researchers, academicians and young entrepreneurs. Panellists and Speakers Made a Profound Impact in Advancing WWM during the International events held in 2019, 2020, 2021 and 2022.

WWM organized first and second international conferences in India in February 2019 and February 2020. It also conducted 3rd Conference in virtual mode in 2021.

As a part of our endeavour to establish global network for innovation and entrepreneurship in the water and waste management sector, WWM Consortium successfully organized 4th International Conference and Expo 2022 from June 15th to 17th, 2022 at Miracle Grand Convention and Hotel, Bangkok, Thailand. His Excellency, the Prime Minister of Thailand, Mr. Prayut Chan-o-cha was the chief guest of the conference. Deputy Minister of Education, Her Excellency Dr. Kampala Sophonpanich (Conference Chair) led the conference. It was considered a first of its kind meeting involving ministerial level plenaries and discussions on thematic areas of water and waste management.

Details of series of WWM conference have been playing vital role in creating a niche of knowledge and Business platforms. Details of the conferences are available at the website: <http://waterandwastemanagement.org/> for ready reference.

5th International WWM Conference 2023, Bhubaneswar, INDIA
