KIIT ENTREPRENEURSHIP CELL

The **KIIT Entrepreneurship Cell (E-Cell)** operates with the motto "Imagine, Innovate, Implement." Entrepreneurs are pioneers — innovators and changemakers who shape a better future. KIIT E-Cell strives to empower these visionaries by providing mentorship, exposure, networking opportunities, and essential support to transform their ideas into successful enterprises. By nurturing a strong entrepreneurial spirit among students, KIIT E-Cell is dedicated to building a comprehensive support system for aspiring business leaders.

The KIIT E-Cell regularly organizes major flagship events, including the KIIT E-Summit, Hult Prize KIIT, Internship Camps, Design XP, Speaker Sessions, Star nights and a variety of workshops and seminars. Additionally, we engage in K12 school events and mentoring programs to nurture the innovation quotient among young students. These large-scale events attract prominent speakers and distinguished guests. With a track record of successful events and conferences spanning over a decade, we're always looking for driven minds to grow with us. Want to be a part of this journey? For more information, feel free to contact Sarvagya, Chairman of KIIT E-Cell, at chairman.ecell@kiit.ac.in.
