About KIIT- Empowering Minds: Nurturing Leaders

Kalinga Institute of Industrial Technology (KIIT), renowned in the education sector, has emerged as a highly sought-after academic institution in India. Established in 1997, KIIT Deemed to be University (DU) has consistently grown and is widely respected for its academic excellence, extensive community engagement, and ethos of compassion and humanitarianism. Its remarkable expansion over just 25 years has made it a unique case study in Indian education.

KIIT is dedicated to providing high-quality education, ensuring stakeholder safety and well-being, fostering innovation and skill development, and nurturing a culture of growth and success. Its incredible transformation is truly a journey from Soil to Silver. All the achievements of KIIT DU have been possible because of its founder – Prof. (Dr.) Achyuta Samanta – lovingly called Samanta Sir – the epitome of principles, discipline, hard work, and selfless service. It truly is an inspiring story of a humble man steering two institutions: KIIT & Kalinga Institute of Social Sciences, to glory despite all the hardships and struggles.

About School of Economics and Commerce

The School of Economics and Commerce focuses on equipping students with professional and life skills to achieve holistic goals. A highly qualified faculty guides students toward success. To enhance career readiness, the school offers internships and field visits as part of the curriculum. Blending traditional teaching methods with modern technologies, such as Wi-Fi-enabled classrooms and projectors, the school prioritizes collaborative learning, research, expert interactions, and professional skills development, ensuring a well-rounded educational experience.

About IQAC

The Internal Quality Assurance Cell (IQAC) at KIIT was established to direct the institution's endeavors and initiatives towards achieving academic excellence and advancement.

Designed as an integral part of the University, IQAC leverages the collective strengths of all its departments and stakeholders. Its primary objective is to cultivate a comprehensive culture of quality within the institute by consolidating institutional efforts towards this goal.

About Viksit Bharat 2047

Viksit Bharat@2047 is a visionary initiative to transform India into a developed nation by its centenary year of independence. Focusing on technology, infrastructure, education, and healthcare, it aims for holistic, sustainable growth, reducing inequalities and improving quality of life. By leveraging India's cultural heritage and demographic advantage, the initiative envisions a prosperous and equitable society. "Viksit Bharat @2047: Voice of Youth" empowers young Indians to drive positive change and development leading up to India's 100th independence anniversary.

Conclave on Mission LiFE (Lifestyle for Environment)

The Mission LiFE initiative is a visionary program aimed at promoting sustainable lifestyles to address global environmental challenges. It focuses on individual and collective actions that prioritize eco-friendly practices, reduce carbon footprints, and foster harmony with nature. By encouraging responsible consumption, efficient resource management, and greener alternatives, Mission LiFE seeks to integrate sustainability into everyday life.

"Adopting LiFE" empowers citizens, communities, and industries to lead environmentally conscious lives, while "Implementing LiFE" integrates sustainable practices into governance, policymaking, and business operations. Together, these efforts aim to build a resilient society capable of achieving the Sustainable Development Goals (SDGs).

Mission LiFE addresses key sectors such as agriculture, energy, water management, and waste reduction, envisioning a future where eco-friendly lifestyles promote environmental, economic, and societal well-being. By leveraging traditional wisdom, modern innovations, and community-driven initiatives, India can lead the global movement for sustainability.

To advance this mission, we are organizing a conclave with the goal of educating stakeholders about Mission LiFE's impact on sustainable development, fostering knowledge-sharing among environmentalists, policymakers, industry leaders, and civil society, and refining policy frameworks to support sustainable practices aligned with the SDGs. The conclave will also showcase successful models and technologies exemplifying sustainable living, create opportunities for collaboration and partnerships, and inspire action to expand the Mission LiFE ecosystem.

Let us unite to redefine lifestyles and champion sustainability through collective efforts for a greener, healthier, and more equitable world.

Call for papers

Papers are invited on various sub-themes of Mission LiFE (Lifestyle for Environment), focusing on sustainable solutions for a better future.

Lexicon of LiFE: A - Z of Sustainable Lifestyle

- Alternative to plastic
