About CAHOTECH

CAHOTECH is the annual healthcare technology conference organized by CAHO to promote innovation, collaboration, and digital transformation in the healthcare sector. Since its launch in 2016, CAHOTECH has grown into a premier national platform that connects healthcare providers with technology developers, startups, investors, policymakers, and academic institutions.

The conference brings together hospitals, startups, health-tech companies, investors, policymakers, and academic institutions to address real-world challenges through innovation. CAHOTECH features expert sessions on digital health, AI, automation, and data-driven care, along with live demonstrations, startup showcases and pitch competitions, and hospitals showcasing innovations and early adoption.

By bridging the gap between clinical need and technological advancement, CAHOTECH continues to play a vital role in strengthening India's healthcare ecosystem
